PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience designing and building end-to-end web applications using Java, Spring Boot, Spring Security, Hibernate, React.js, and MySQL, along with growing experience in .NET and C#. Skilled across the stack: RESTful API design, JWT-based authentication and authorization, relational schema design, responsive React.js frontends, and inter-service communication across polyglot microservices. Postgraduate in Advanced Computing (CDAC) with a strong foundation in MVC architecture, OOP, and microservices. Quick learner with a non-traditional engineering background, bringing strong analytical and problem-solving skills to full stack development.

EXPERIENCE

Software Developer Intern — Deeporion Technology Pvt Ltd

2025

React.js, JavaScript, HTML5, CSS3

- Worked on the frontend team, building and designing web pages using React.js as part of ongoing product development.
- Translated page designs into responsive, functional React components, contributing to the overall UI of the product.
- Gained early hands-on exposure to a real development workflow, including working alongside a team and using version control.

TECHNICAL SKILLS

Languages: Java, C#, JavaScript, C, C++

Backend: .NET, ASP.NET, Spring Boot, Spring Security, Spring Data JPA, Hibernate, Node.js, Express.js, RESTful API Design, JWT Authentication, MVC Architecture, Microservices

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design

Databases: MySQL, Schema Design, Normalization

Developer Tools: Git, GitHub, Postman, STS, VS Code, IntelliJ IDEA, MySQL Workbench, Maven, npm

Concepts: OOP, Collections Framework, Exception Handling, End-to-End Application Architecture

Testing/DevOps: Docker, GitHub Actions/Jenkins

FULL STACK PROJECTS

AdElevate — SaaS Advertising Platform

2026

Java, Spring Boot, Spring Security, Spring Data JPA, Hibernate, MySQL, React.js

- Architected a full-stack SaaS platform enabling small businesses to run subscription-based ad campaigns, supporting 3 role-based access levels (Admin, Vendor, Customer) using Spring Security and JWT authentication.
- Designed and developed 20+ RESTful APIs following MVC architecture on the backend, handling advertisement management, subscription billing, and business verification workflows.
- Built analytics dashboards using React.js on the frontend to visualize campaign performance, connecting UI components directly to backend APIs and reducing manual reporting effort for vendors.
- Implemented a secure end-to-end payment workflow and role-based access control spanning both the Spring Boot backend and the React.js client.
- Built a supplementary logging microservice in .NET to track login and payment activity, and integrated it with the core Spring Boot backend via RestTemplate, gaining hands-on experience with polyglot inter-service communication.

CODEVA — E-Commerce Web Application

2025

React.js, Node.js, Express.js, MySQL

- Built a full-stack e-commerce platform with JWT-based user authentication, product catalog management, and a persistent shopping cart, owning both the Node.js/Express backend and the React.js frontend.
- Designed and integrated RESTful APIs for product, cart, and order processing, connecting the React.js frontend to the Node.js/Express backend.
- Developed a fully responsive UI (mobile + desktop) using React.js, improving usability across device types.
- Normalized the MySQL schema to support inventory tracking without data redundancy, ensuring backend data integrity matched frontend display needs.

EDUCATION

Center For Development of Advanced Computing (CDAC)

2026

Post Graduation in Advanced Computing — Pune, India

Madhav Institute of Technology & Science, Gwalior

2025

B. Tech — Civil Engineering — Gwalior, India

CERTIFICATIONS

- IBM SQL and Relational Database
- AWS Foundations of Prompt Engineering
- Generative AI by Microsoft & LinkedIn
- Google Data Analytics Professional Certificate
